

# Towel Up!

Monoart® Towel Up! disposable towels are made in Italy from highly absorbent multiple-ply pure cellulose fibre wadding, embossed with a waterproof polyethylene film, without the use of glues. Their unique, 100% recyclable packaging features an 'open/close' system that protects the contents from dust and contamination, guaranteeing maximum hygiene from the first to the last towel. The opening is designed to combine practicality and protection: it allows only one towel to be removed at a time, avoiding contact with the next one.

## Available accessories

- Practical white dispenser for disposable towels (dimensions: 16.5 x 16.5 x 12.5 cm);
- Adjustable towel chain in brass and chrome-plated steel (length approx. 45 cm).

### Colours

Black, blue, blue lagoon, burgundy, grey, light blue, light green, lilac, lime, natura, orange, pink, white, yellow

### Size

Pack 17 x 8 x 11 cm (lxdxh)  
Towel 33 x 45 cm

### Packaging

Pack of 50 towels with 'open/close' system  
Carton of 10 packs  
(500 towels in total)

## Practical

Keep your clinic tidy and simplify your work with innovative packaging and compact design, available in all Monoart® colour variants.

## Safe

Made without the use of glues, with pure cellulose from a sustainable supply chain and non-toxic polyethylene.

## Hygienic

Automated production lines and protective packaging: from the time they leave production until the time they're used, they maintain maximum hygiene and cleanliness to minimise the risk of contamination.
